

League Legislative Priorities
Submitted by the LWV Pullman, WA
January 10, 2012

The LWV Pullman, WA met Jan. 9 to discuss program planning. We found that we support the LWVUS current action priorities and want to see them continued:

Representative Government

- Fighting restrictive Voter ID Requirements
- Fighting unfair redistricting plans

Natural Resources

- Supporting the Environmental Protection Agency and the laws it enforces. Especially protecting the clean air acts

Social Policy

- Support for a Universal Health Care System based on a single payer model.

We suggest adding the following action priorities.

Representative Government.

- Supporting Campaign Finance Reform, especially opposing the declaration that corporations have the rights of persons (Citizens United decision)

Natural Resources

- Action against allowing the Keystone Pipeline whose route endangers the most important aquifer for agriculture in the US.

Social Policy

- Action to oppose the current effort to reduce or eliminate reproductive rights for women
- Action to strengthen all Veterans services including services for veterans families.
